

CLIENT NEEDS

A leading Biotech company needed support in building a global packaging function enabling growth, speed to market, and consistency. They also needed to align internal global sites and CMOs with templates, business processes and subject matter expertise.

RESULTS

Improved Quality of Packaging Specifications

Developed Packaging Platform Strategies

Packaging Department Growth from 5 to 30 Engineers

STEPS TAKEN BY ADEPT

- Engaged with each global location and key stakeholders to determine the problematic areas and pressing issues
- Created a guide to explain the benefits of the global function and improved speed to market for pipeline drugs
- Implemented improvements, harmonization and business processes
