

Cost Optimization

Pre-Filled Syringe Packaging

\$125,000
Annual Savings

Reduced the client's annual savings justifying Adept's involvement as the project lead

CLIENT NEEDS

A major pharmaceutical company was packaging pre-filled syringes into cartons manually. Adept Packaging personnel identified an opportunity to automate the carton packing operation and save money in the process.

STEPS TAKEN BY THE ADEPT TEAM

- Identified and presented the cost savings opportunity to the contract manufacturer to obtain project approval
- Conducted a thorough ROI calculation based on past and forecasted quantities
- Identified a solution that would automate the process, save costs, and maintain existing quality targets
