

Client Needs

Establish GLN locations throughout their internal organization and share GLN information with Trading Partners. They also needed to enable EPCIS compliant data messaging.

Challenges

- No overarching implementation strategy for traceability
- Limited understanding of traceability requirements
- Limited understanding of GLN and EPCIS
- Lack of familiarity with traceability tools, yet products are supplied to sophisticated markets where traceability is required

Results

 GS1 Compliant Communication With Extended Supply Chain

STEPS TAKEN BY ADEPT

- Determine overarching strategy
- Evaluate impacts to current processes
- Assess impact to IT systems
- Establish business processes for traceability
- Use Adept Accelerators for fast results
